

ST MICHAEL'S CATHOLIC COLLEGE DATA PROTECTION POLICY 2018-19

Introduction

The General Data Protection Regulation (GDPR) ensures a balance between an individual's rights to privacy and the lawful processing of personal data undertaken by organisations in the course of their business. It aims to protect the rights of individuals about whom data is obtained, stored, processed or supplied and requires that organisations take appropriate security measures against unauthorised access, alteration, disclosure or destruction of personal data.

The College will protect and maintain a balance between data protection rights in accordance with the GDPR. This policy sets out how we handle the personal data of our pupils, parents, suppliers, employees, workers and other third parties.

This policy does not form part of any individual's terms and conditions of employment with the College and is not intended to have contractual effect. Changes to data protection legislation will be monitored and further amendments may be required to this policy in order to remain compliant with legal obligations.

All members of staff are required to familiarise themselves with its content and comply with the provisions contained in it. Breach of this policy will be treated as a disciplinary offence which may result in disciplinary action under the College's Disciplinary Policy and Procedure up to and including summary dismissal depending on the seriousness of the breach.

SECTION 1 - DEFINITIONS

Personal data

Personal data is any information relating to an individual where the individual can be identified (directly or indirectly) from that data alone or in combination with other identifiers we possess or can reasonably access. This includes special category data and pseudonymised personal data but excludes anonymous data or data that has had the identity of an individual permanently removed.

Personal data can be factual (for examples a name, email address, location or date of birth) or an opinion about that person's actions or behaviour.

Personal data will be stored either electronically or as part of a structured manual filing system in such a way that it can be retrieved automatically by reference to the individual or criteria relating to that individual.

Special Category Data

Previously termed “Sensitive Personal Data”, Special Category Data is similar by definition and refers to data concerning an individual Data Subject’s racial or ethnic origin, political or religious beliefs, trade union membership, physical and mental health, sexuality, biometric or genetic data and personal data relating to criminal offences and convictions.

Data Subject

An individual about whom such information is stored is known as the Data Subject. It includes but is not limited to employees.

Data Controller

The organisation storing and controlling such information (i.e. the College) is referred to as the Data Controller.

Processing

Processing data involves any activity that involves the use of personal data. This includes but is not limited to: obtaining, recording or holding data or carrying out any operation or set of operations on that data such as organisation, amending, retrieving using, disclosing, erasing or destroying it. Processing also includes transmitting or transferring personal data to third parties.

Automated Processing

Any form of automated processing of personal data consisting of the use of personal data to evaluate certain personal aspects relating to an individual, in particular to analyse or predict aspects concerning that individual’s performance at work, economic situation, health, personal preferences, interests, reliability, behaviour, location or movements.

An example of automated processing includes profiling and automated decision making. Automatic decision making is when a decision is made which is based solely on automated processing which produces legal effects or significantly affects an individual. Automated decision making is prohibited except in exceptional circumstances.

Data Protection Impact Assessment (DPIA)

DPIAs are a tool used to identify risks in data processing activities with a view to reducing them.

Criminal Records Information

This refers to personal information relating to criminal convictions and offences, allegations, proceedings, and related security measures.

SECTION 2 - WHEN CAN THE COLLEGE PROCESS PERSONAL DATA

Data Protection Principles

The College are responsible for and adhere to the principles relating to the processing of personal data as set out in the GDPR.

The principles the College must adhere to are: -

- (1) Personal data must be processed lawfully, fairly and in a transparent manner;
- (2) Personal data must be collected only for specified, explicit and legitimate purposes;
- (3) Personal data must be adequate, relevant and limited to what is necessary in relation to the purposes for which it is processed;
- (4) Personal data must be accurate and, where necessary, kept up to date;
- (5) Personal data must not be kept in a form which permits identification of data subjects for longer than is necessary for the purposes for which the data is processed; and
- (6) Personal data must be processed in a manner that ensures its security using appropriate technical and organisational measures to protect against unauthorised or unlawful processing and against accidental loss, destruction or damage.

Further details on each of the above principles is set out below.

Principle 1: Personal data must be processed lawfully, fairly and in a transparent manner

The College only collect, process and share personal data fairly and lawfully and for specified purposes. The College must have a specified purpose for processing personal data and special category of data as set out in the GDPR.

Before the processing starts for the first time we will review the purposes of the particular processing activity and select the most appropriate lawful basis for that processing. We will then regularly review those purposes whilst processing continues in order to satisfy ourselves that the processing is necessary for the purpose of the relevant lawful basis (i.e. that there is no other reasonable way to achieve that purpose).

Personal Data

The College may only process a data subject's personal data if one of the following fair processing conditions are met: -

- The data subject has given their consent;
- The processing is necessary for the performance of a contract with the data subject or for taking steps at their request to enter into a contract;
- To protect the data subject's vital interests;

- To meet our legal compliance obligations (other than a contractual obligation);
- To perform a task in the public interest or in order to carry out official functions as authorised by law;
- For the purposes of the College's legitimate interests where authorised in accordance with data protection legislation. This is provided that it would not prejudice the rights and freedoms or legitimate interests of the data subject.

Special Category Data

The College may only process special category data if they are entitled to process personal data (using one of the fair processing conditions above) AND one of the following conditions are met: -

- The data subject has given their explicit consent;
- The processing is necessary for the purposes of exercising or performing any right or obligation which is conferred or imposed on the College in the field of employment law, social security law or social protection law. This may include, but is not limited to, dealing with sickness absence, dealing with disability and making adjustments for the same, arranging private health care insurance and providing contractual sick pay;
- To protect the data subject's vital interests;
- To meet our legal compliance obligations (other than a contractual obligation);
- Where the data has been made public by the data subject;
- To perform a task in the substantial public interest or in order to carry out official functions as authorised by law;
- Where it is necessary for the purposes of preventive or occupational medicine, for the assessment of the working capacity of the employee, medical diagnosis, the provision of health or social care or treatment or the management of health or social care systems and services;
- Where it is necessary for reasons of public interest in the area of public health;
- The processing is necessary for archiving, statistical or research purposes.

The College identifies and documents the legal grounds being relied upon for each processing activity.

Consent

Where the College relies on consent as a fair condition for processing (as set out above), it will adhere to the requirements set out in the GDPR.

Consent must be freely given, specific, informed and be an unambiguous indication of the data subject's wishes by which they signify agreement to the processing of personal data relating to them. Explicit consent requires a very clear and specific statement to be relied upon (i.e. more than just mere action is required).

A data subject will have consented to processing of their personal data if they indicate agreement clearly either by a statement or positive action to the processing. Consent requires affirmative action so silence, pre-ticked boxes or inactivity will not amount to valid consent.

Data subjects must be easily able to withdraw consent to processing at any time and withdrawal must be promptly honoured.

If explicit consent is required, the College will normally seek another legal basis to process that data. However if explicit consent is required the data subject will be provided with full information in order to provide explicit consent.

The College will keep records of consents obtained in order to demonstrate compliance with consent requirements under the GDPR.

Principle 2: Personal data must be collected only for specified, explicit and legitimate purposes

Personal data will not be processed in any matter that is incompatible with the legitimate purposes.

The College will not use personal data for new, different or incompatible purposes from that disclosed when it was first obtained unless we have informed the data subject of the new purpose (and they have consented where necessary).

Principle 3: Personal data must be adequate, relevant and limited to what is necessary in relation to the purposes for which it is processed

The College will only process personal data when our obligations and duties require us to. We will not collect excessive data and ensure any personal data collected is adequate and relevant for the intended purposes.

When personal data is no longer needed for specified purposes, the College shall delete or anonymise the data. Please refer to the College's Data Retention Policy for further guidance.

Principle 4: Personal data must be accurate and, where necessary, kept up to date

The College will endeavour to correct or delete any inaccurate data being processed by checking the accuracy of the personal data at the point of collection and at regular intervals afterwards. We will take all reasonable steps to destroy or amend inaccurate or out of date personal data.

Data subjects also have an obligation to ensure that their data is accurate, complete, up to date and relevant. Data subjects have the right to request rectification to incomplete or inaccurate data held by the College.

Principle 5: Personal data must not be kept in a form which permits identification of data subjects for longer than is necessary for the purposes for which the data is processed

Legitimate purposes for which the data is being processed may include satisfying legal, accounting or reporting requirements. The College will ensure that they adhere to legal timeframes for retaining data.

We will take reasonable steps to destroy or erase from our systems all personal data that we no longer require. We will also ensure that data subjects are informed of the period for which data is stored and how that period is determined in our privacy notices.

Please refer to the College's Data Retention Policy for further details about how the College retains and removes data.

Principle 6: Personal data must be processed in a manner that ensures its security using appropriate technical and organisational measures to protect against unauthorised or unlawful processing and against accidental loss, destruction or damage

In order to assure the protection of all data being processed, the College will develop, implement and maintain reasonable safeguard and security measures. This includes using measures such as: -

- Encryption;
- Pseudonymisation (this is where the College replaces information that directly or indirectly identifies an individual with one or more artificial identifiers or pseudonyms so that the person to whom the data relates cannot be identified without the use of additional information which is meant to be kept separately and secure);
- Ensuring authorised access (i.e. that only people who have a need to know the personal data are authorised to access it);
- Adhering to confidentiality principles;
- Ensuring personal data is accurate and suitable for the process for which it is processed.

The College follow procedures and technologies to ensure security and will regularly evaluate and test the effectiveness of those safeguards to ensure security in processing personal data.

The College will only transfer personal data to third party service providers who agree to comply with the required policies and procedures and agree to put adequate measures in place.

Full details on the College's security measures are set out in the College's Information Security Policy.

Sharing Personal Data

The College will generally not share personal data with third parties unless certain safeguards and contractual arrangements have been put in place. These include if the third party: -

- Has a need to know the information for the purposes of providing the contracted services;
- Sharing the personal data complies with the privacy notice that has been provided to the data subject and, if required, the data subject's consent has been obtained;

- The third party has agreed to comply with the required data security standards, policies and procedures and put adequate security measures in place;
- The transfer complies with any applicable cross border transfer restrictions; and
- A fully executed written contract that contains GDPR approved third party clauses has been obtained.

There may be circumstances where the College is required either by law or in the best interests of our pupils, parents or staff to pass information onto external authorities, for example, the local authority, Ofsted or the department of health. These authorities are up to date with data protection law and have their own policies relating to the protection of any data that they receive or collect.

The intention to share data relating to individuals to an organisation outside of our College shall be clearly defined within written notifications and details and basis for sharing that data given.

Transfer of Data Outside the European Economic Area (EEA)

The GDPR restricts data transfers to countries outside the EEA in order to ensure that the level of data protection afforded to individuals by the GDPR is not undermined.

The College will not transfer data to another country outside of the EEA without appropriate safeguards being in place and in compliance with the GDPR. All staff must comply with the College's guidelines on transferring data outside of the EEA. For the avoidance of doubt, a transfer of data to another country can occur when you transmit, send, view or access that data in that particular country.

SECTION 3 - DATA SUBJECT'S RIGHTS AND REQUESTS

Personal data must be made available to data subjects as set out within this policy and data subjects must be allowed to exercise certain rights in relation to their personal data.

The rights data subjects have in relation to how the College handle their personal data are set out below: -

- (a) (Where consent is relied upon as a condition of processing) To withdraw consent to processing at any time;
- (b) Receive certain information about the College's processing activities;
- (c) Request access to their personal data that we hold;
- (d) Prevent our use of their personal data for marketing purposes;
- (e) Ask us to erase personal data if it is no longer necessary in relation to the purposes for which it was collected or processed or to rectify inaccurate data or to complete incomplete data;
- (f) Restrict processing in specific circumstances;

- (g) Challenge processing which has been justified on the basis of our legitimate interests or in the public interest;
- (h) Request a copy of an agreement under which personal data is transferred outside of the EEA;
- (i) Object to decisions based solely on automated processing;
- (j) Prevent processing that is likely to cause damage or distress to the data subject or anyone else;
- (k) Be notified of a personal data breach which is likely to result in high risk to their rights and freedoms;
- (l) Make a complaint to the supervisory authority; and
- (m) In limited circumstances, receive or ask for their personal data to be transferred to a third party in a structured, commonly used and machine readable format.

If any request is made to exercise the rights above, it is a requirement for the relevant staff member within the College to verify the identity of the individual making the request.

Subject Access Requests

A Data Subject has the right to be informed by the College of the following: -

- (a) Confirmation that their data is being processed;
- (b) Access to their personal data;
- (c) A description of the information that is being processed;
- (d) The purpose for which the information is being processed;
- (e) The recipients/class of recipients to whom that information is or may be disclosed;
- (f) Details of the College's sources of information obtained;
- (g) In relation to any Personal Data processed for the purposes of evaluating matters in relation to the Data Subject that has constituted or is likely to constitute the sole basis for any decision significantly affecting him or her, to be informed of the logic of the Data Controller's decision making. Such data may include, but is not limited to, performance at work, creditworthiness, reliability and conduct.
- (h) Other supplementary information

Any Data Subject who wishes to obtain the above information must notify the College in writing of his or her request. This is known as a Data Subject Access Request.

The request should in the first instance be sent to Mr J. Arda, Assistant Principal in charge of Data.

Direct Marketing

The College are subject to certain rules and privacy laws when marketing. For example a data subject's prior consent will be required for electronic direct marketing (for example, by email, text or automated calls).

The College will explicitly offer individuals the opportunity to object to direct marketing and will do so in an intelligible format which is clear for the individual to understand. The College will promptly respond to any individual objection to direct marketing.

Employee Obligations

Employees may have access to the personal data of other members of staff, suppliers, parents or pupils of the College in the course of their employment or engagement. If so, the College expects those employees to help meet the College's data protection obligations to those individuals. Specifically, you must: -

- Only access the personal data that you have authority to access, and only for authorised purposes;
- Only allow others to access personal data if they have appropriate authorisation;
- Keep personal data secure (for example by complying with rules on access to College premises, computer access, password protection and secure file storage and destruction. (Please refer to the College's Information Security Policy for further details about our security processes);
- Not to remove personal data or devices containing personal data from the College premises unless appropriate security measures are in place (such as Pseudonymisation, encryption, password protection) to secure the information;
- Not to store personal information on local drives.

SECTION 4 - ACCOUNTABILITY

The College will ensure compliance with data protection principles by implementing appropriate technical and organisational measures. We are responsible for and demonstrate accountability with the GDPR principles.

The College have taken the following steps to ensure and document GDPR compliance: -

Personal Data Breaches

The GDPR requires the College to notify any applicable personal data breach to the Information Commissioner's Office (ICO).

We have put in place procedures to deal with any suspected personal data breach and will notify data subjects or any applicable regulator where we are legally required to do so.

If you know or suspect that a personal data breach has occurred, do not attempt to investigate the matter yourself. Immediately contact the person designated as the key point of contact for personal data breaches (Mr J. Arda at St Michael's Catholic College) or the DPO (who is Craig Stilwell).

Whenever we collect personal data directly from data subjects, including for human resources or employment purposes, we will provide the data subject with all the information required by the GDPR including the identity of the data protection officer, the College's contact details, how and why we will use, process, disclose, protect and retain personal data.

When personal data is collected indirectly (for example from a third party or publically available source), we will provide the data subject with the above information as soon as possible after receiving the data. The College will also confirm whether that third party has collected and processed data in accordance with the GDPR.

Notifications shall be in accordance with ICO guidance and, where relevant, be written in a form understandable by those defined as "children" under the GDPR

Privacy by Design

The College adopt a privacy by design approach to data protection to ensure that we adhere to data compliance and to implement technical and organisational measures in an effective manner.

Privacy by design is an approach that promotes privacy and data protection compliance from the start. To help us achieve this, the College takes into account the nature and purposes of the processing, any cost of implementation and any risks to rights and freedoms of data subjects when implementing data processes.

Data Protection Impact Assessments (DPIAs)

In order to achieve a privacy by design approach, the College conduct DPIAs for any new technologies or programmes being used by the College which could affect the processing of personal data. In any event the College carries out DPIAs when required by the GDPR in the following circumstances: -

- An assessment of the necessity and proportionality of the processing in relation to its purpose;
- An assessment of the risk to individuals; and
- The risk mitigation measures in place and demonstration of compliance.

Appendix B

ST MICHAEL'S CATHOLIC COLLEGE DATA BREACH POLICY 2018

The General Data Protection Regulation (GDPR) aims to protect the rights of individuals about whom data is obtained, stored, processed or supplied and requires that organisations take appropriate security measures against unauthorised access, alteration, disclosure or destruction of personal data.

The GDPR places obligations on staff to report actual or suspected data breaches and our procedure for dealing with breaches is set out below. All members of staff are required to familiarise themselves with its content and comply with the provisions contained in it. Training will be provided to all staff to enable them to carry out their obligations within this policy.

Data Processors will be provided with a copy of this policy and will be required to notify the School of any data breach without undue delay after becoming aware of the data breach. Failure to do so may result in a breach to the terms of the processing agreement.

Breach of this policy will be treated as a disciplinary offence which may result in disciplinary action under the School's Disciplinary Policy and Procedure up to and including summary dismissal depending on the seriousness of the breach.

This policy does not form part of any individual's terms and conditions of employment with the School and is not intended to have contractual effect. Changes to data protection legislation will be monitored and further amendments may be required to this policy in order to remain compliant with legal obligations.

Definitions

Personal Data

Personal data is any information relating to an individual where the individual can be identified (directly or indirectly) from that data alone or in combination with other identifiers we possess or can reasonably access. This includes special category data and pseudonymised personal data but excludes anonymous data or data that has had the identity of an individual permanently removed.

Personal data can be factual (for examples a name, email address, location or date of birth) or an opinion about that person's actions or behaviour.

Personal data will be stored either electronically or as part of a structured manual filing system in such a way that it can be retrieved automatically by reference to the individual or criteria relating to that individual.

Special Category Data

Previously termed "Sensitive Personal Data", Special Category Data is similar by definition and refers to data concerning an individual's racial or ethnic origin, political or religious beliefs, trade union membership, physical and mental health, sexuality, biometric or genetic data and personal data relating to criminal offences and convictions.

Personal Data Breach

A personal data breach is a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data or special category data transmitted, stored or otherwise processed.

Data Subject

Person to whom the personal data relates.

ICO

ICO is the Information Commissioner's Office, the UK's independent regulator for data protection and information.

Responsibility

Mr J. Arda, Assistant Principal in charge of Data, has overall responsibility for breach notification within the School. They are responsible for ensuring breach notification processes are adhered to by all staff and are the designated point of contact for personal data breaches.

In the absence of the Assistant Principal in charge of Data, please do contact Ms F. Corcoran, Principal.

The Data Protection Officer (DPO) is responsible for overseeing this policy and developing data-related policies and guidelines.

Please contact the DPO with any questions about the operation of this policy or the GDPR or if you have any concerns that this policy is not being or has not been followed.

The DPO's contact details are set out below: -

Data Protection Officer: Craig Stilwell

Address: Judicium Consulting Ltd, 72 Cannon Street, London, EC4N 6AE

Email: dataservices@judicium.com

Telephone: 0203 326 9174

Security and Data-Related Policies

Staff should refer to the following policies that are related to this data protection policy: - Security Policy which sets out the School's guidelines and processes on keeping personal data secure against loss and misuse.

Data Protection Policy which sets out the School's obligations under GDPR about how they process personal data.

These policies are also designed to protect personal data and can be found at <https://www.stmichaelscollege.org.uk/gdpr/>.

Data Breach Procedure

What Is A Personal Data Breach?

A personal data breach is a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data or special category data transmitted, stored or otherwise processed.

Examples of a data breach could include the following (but are not exhaustive): -

- Loss or theft of data or equipment on which data is stored, for example loss of a laptop or a paper file (this includes accidental loss);
- Inappropriate access controls allowing unauthorised use;
- Equipment failure;
- Human error (for example sending an email or SMS to the wrong recipient);
- Unforeseen circumstances such as a fire or flood;
- Hacking, phishing and other "blagging" attacks where information is obtained by deceiving whoever holds it.

When Does It Need To Be Reported?

The School must notify the ICO of a data breach where it is likely to result in a risk to the rights and freedoms of individuals. This means that the breach needs to be more than just losing personal data and if unaddressed the breach is likely to have a significant detrimental effect on individuals.

Examples of where the breach may have a significant effect includes: -

- potential or actual discrimination;
- potential or actual financial loss;
- potential or actual loss of confidentiality;
- risk to physical safety or reputation;
- exposure to identity theft (for example through the release of non-public identifiers such as passport details);
- the exposure of the private aspect of a person's life becoming known by others.

If the breach is likely to result in a high risk to the rights and freedoms of individuals then the individuals must also be notified directly.

Reporting A Data Breach

If you know or suspect a personal data breach has occurred or may occur which meets the criteria above, you should: -

- Complete a data breach report form (which can be obtained from Mr J Arda j.arda@stmichaelscollege.org.uk);
- Email the completed form to Mr J.Arda.

Where appropriate, you should liaise with your line manager about completion of the data report form. Breach reporting is encouraged throughout the School and staff are expected to seek advice if they are unsure as to whether the breach should be reported and/or could result in a risk to the rights and freedom of individuals. They can seek advice from their line manager, Mr J.Arda or the DPO.

Once reported, you should not take any further action in relation to the breach. In particular you must not notify any affected individuals or regulators or investigate further. Mr J.Arda will acknowledge receipt of the data breach report form and take appropriate steps to deal with the report in collaboration with the DPO.

Managing and Recording The Breach

On being notified of a suspected personal data breach, Mr J.Arda will notify the DPO. Collectively they will take immediate steps to establish whether a personal data breach has in fact occurred. If so they will take steps to:-

- Where possible, contain the data breach;
- As far as possible, recover, rectify or delete the data that has been lost, damaged or disclosed;
- Assess and record the breach in the School's data breach register;
- Notify the ICO;
- Notify data subjects affected by the breach;
- Notify other appropriate parties to the breach;
- Take steps to prevent future breaches.

Notifying the ICO

Craig Stilwell will notify the ICO when a personal data breach has occurred which is likely to result in a risk to the rights and freedoms of individuals.

This will be done without undue delay and, where possible, within 72 hours of becoming aware of the breach. The 72 hours deadline is applicable regardless of school holidays (I.e. it is not 72 working hours). If the School are unsure of whether to report a breach, the assumption will be to report it.

Where the notification is not made within 72 hours of becoming aware of the breach, written reasons will be recorded as to why there was a delay in referring the matter to the ICO.

Notifying Data Subjects

Where the data breach is likely to result in a high risk to the rights and freedoms of data subjects, Mr J.Arda will notify the affected individuals without undue delay including the name and contact details of the DPO and ICO, the likely consequences of the data breach and the measures the School have (or intended) to take to address the breach.

When determining whether it is necessary to notify individuals directly of the breach, Mr J.Arda will co-operate with and seek guidance from the DPO, the ICO and any other relevant authorities (such as the police).

If it would involve disproportionate effort to notify the data subjects directly (for example, by not having contact details of the affected individual) then the School will consider alternative means to make those affected aware (for example by making a statement on the School website).

Notifying Other Authorities

The School will need to consider whether other parties need to be notified of the breach. For example: -

- Insurers;
- Parents;
- Third parties (for example when they are also affected by the breach);
- Local authority;
- The police (for example if the breach involved theft of equipment or data).

This list is non-exhaustive.

Assessing The Breach

Once initial reporting procedures have been carried out, the School will carry out all necessary investigations into the breach.

The School will identify how the breach occurred and take immediate steps to stop or minimise further loss, destruction or unauthorised disclosure of personal data. We will identify ways to recover correct or delete data (for example notifying our insurers or the police if the breach involves stolen hardware or data).

Having dealt with containing the breach, the School will consider the risks associated with the breach. These factors will help determine whether further steps need to be taken (for example notifying the ICO and/or data subjects as set out above). These factors include: -

- What type of data is involved and how sensitive it is;
- The volume of data affected;
- Who is affected by the breach (i.e. the categories and number of people involved);
- The likely consequences of the breach on affected data subjects following containment and whether further issues are likely to materialise;

- Are there any protections in place to secure the data (for example, encryption, password protection, pseudonymisation);
- What has happened to the data;
- What could the data tell a third party about the data subject;
- What are the likely consequences of the personal data breach on the school; and
- Any other wider consequences which may be applicable.

Preventing Future Breaches

Once the data breach has been dealt with, the School will consider its security processes with the aim of preventing further breaches. In order to do this, we will: -

- Establish what security measures were in place when the breach occurred;
- Assess whether technical or organisational measures can be implemented to prevent the breach happening again;
- Consider whether there is adequate staff awareness of security issues and look to fill any gaps through training or tailored advice;
- Consider whether its necessary to conduct a privacy or data protection impact assessment;
- Consider whether further audits or data protection steps need to be taken;
- To update the data breach register;
- To debrief governors/management following the investigation.

Reporting Data Protection Concerns

Prevention is always better than dealing with data protection as an after-thought. Data security concerns may arise at any time and we would encourage you to report any concerns (even if they don't meet the criteria of a data breach) that you may have to Mr J.Arda or the DPO. This can help capture risks as they emerge, protect the School from data breaches and keep our processes up to date and effective.

Monitoring

We will monitor the effectiveness of this and all of our policies and procedures and conduct a full review and update as appropriate.

Our monitoring and review will include looking at how our policies and procedures are working in practice to reduce the risks posed to the College.

Appendix C

ST MICHAEL'S CATHOLIC COLLEGE FREEDOM OF INFORMATION POLICY 2018

Introduction

The Freedom of Information Act 2000 gives individuals the right to access official information from public bodies. Under the Act, any person has a legal right to ask for access to information held by the College. They are entitled to be told whether the College holds the information, and to receive a copy, subject to certain exemptions. While the Act assumes openness, it recognises that certain information is sensitive. There are exemptions to protect this information.

Public Authorities should be clear and proactive about the information they will make public. For this reason, a publication scheme is available (See Appendix A).

This policy does not form part of any individual's terms and conditions of employment with the College and is not intended to have contractual effect.

This policy should be used in conjunction with the College's Internet Use Policy and Data Protection Policy.

Requests

Requests under Freedom of Information should be made to Mr J. Arda, Assistant Principal in charge of Data. However the request can be addressed to anyone in the College; so all staff need to be aware of the process for dealing with requests.

Requests for information that are not data protection or environmental information requests will be covered by the Freedom of Information Act: -

Data Protection enquiries (or subject access requests) are requests where the enquirer asks to see what personal information the College holds about the enquirer. If the enquiry is a Data Protection request, the College's Data Protection Policy should be followed.

Environmental Information Regulations enquiries are those which relate to air, water, land, natural sites, built environment, flora and fauna, and health, and any decisions and activities affecting any of these. These could therefore include enquiries about recycling, phone masts,

College playing fields, car parking etc. If the enquiry is about environmental information, follow the guidance on the Department for Environment, Food and Rural Affairs (DEFRA) website.

Freedom of Information requests must be made in writing, (including email), and should include the enquirers name and correspondence address (email addresses are allowed), and state what information they require. There must be enough information in the request to be able to identify and locate the information. If this information is covered by one of the other pieces of legislation (as referred to above), they will be dealt with under the relevant policy/procedure related to that request.

If the request is ambiguous and/or the College require further information in order to deal with your request, the College will request this further information directly from the individual making the request. Please note that the College do not have to deal with the request until the further information is received. Therefore, the time limit starts from the date that the College receives all information required in order to deal with the request.

The requester does not have to mention the Act, nor do they have to say why they want the information. There is a duty to respond to all requests, telling the enquirer whether or not the information is held, and supplying any information that is held, except where exemptions apply. There is a time limit of 20 working days excluding school holidays for responding to the request.

Information

Provided all requirements are met for a valid request to be made, the College will provide the information that it holds (unless an exemption applies).

“Holding” information means information relating to the business of the College:

- That the College has created; or
- That the College has received from another body or person; or
- Held by another body on the College’s behalf.

Information means both hard copy and digital information, including email.

If the information is held by another public authority, such as the Local Authority, first check with them they hold it, then transfer the request to them. If this applies, the College will notify the enquirer that they do not hold the information and to whom they have transferred the request. The College will continue to answer any parts of the enquiry in respect of information it does hold.

When the College does not hold the information, it has no duty to create or acquire it; just to answer the enquiry, although a reasonable search will be made before confirming whether the College has the information requested.

If the information requested is already in the public domain, for instance through the Publication Scheme or on the St Michael’s Catholic College website, the College will direct the enquirer to the information and explain how to access it.

The requester has the right to be told if the information requested is held by the College (subject to any of the exemptions). This obligation is known as the College's "duty to confirm or deny" that it holds the information. However, the College does not have to confirm or deny if:-

- The exemption is an absolute exemption; or
- In the case of qualified exemptions, confirming or denying would itself disclose exempted information.

Vexatious Requests

There is no obligation on the College to comply with vexatious requests. A vexatious request is one which is designed to cause inconvenience, harassment or expense rather than to obtain information, and would require a substantial diversion of resources or would otherwise undermine the work of the College. This however does not provide an excuse for bad records management.

In addition, the College do not have to comply with repeated identical or substantially similar requests from the same applicant unless a "reasonable" interval has elapsed between requests.

Fees

The College may charge the requester a fee for providing the requested information. This will be dependent on whether the staffing costs in complying with the request exceeds the "threshold." The threshold is currently £450 with staff costs calculated at a fixed rate of £25 per hour (therefore 18 hours' work is required before the threshold is reached).

If a request would cost less than the threshold, then the College can only charge for the cost of informing the applicant whether the information is held, and communicating the information to the applicant (e.g. photocopying, printing and postage costs).

When calculating costs/threshold, the College can take account of the staff costs/time in determining whether the information is held by the College, locating and retrieving the information, and extracting the information from other documents. The College will not take account of the costs involved with considering whether information is exempt under the Act.

If a request would cost more than the appropriate limit, (£450) the College can turn the request down, answer and charge a fee or answer and waive the fee.

If the College are going to charge they will send the enquirer a fees notice. The College do not have to comply with the request until the fee has been paid. More details on fees can be found on the ICO website.

If planning to turn down a request for cost reasons, or charge a high fee, you should contact the applicant in advance to discuss whether they would prefer the scope of the request to be modified so that, for example, it would cost less than the appropriate limit.

Where two or more requests are made to the College by different people who appear to be acting together or as part of a campaign the estimated cost of complying with any of the requests may be taken to be the estimated total cost of complying with them all.

Time Limits

Compliance with a request must be prompt and within the time limit of 20 working days (excluding school holidays). Failure to comply could result in a complaint by the requester to the Information Commissioner. The response time starts from the time the request is received.

Where the College has asked the enquirer for more information to enable it to answer, the 20 working days start time begins when this further information has been received.

If some information is exempt this will be detailed in the College's response.

If a qualified exemption applies and the College need more time to consider the public interest test, the College will reply in 20 working days (term time only) stating that an exemption applies but include an estimate of the date by which a decision on the public interest test will be made. This should be within a "reasonable" time.

Where the College has notified the enquirer that a charge is to be made, the time period stops until payment is received.

Third Party Data

Consultation of third parties may be required if their interests could be affected by release of the information requested, and any such consultation may influence the decision.

Consultation will be necessary where:

- Disclosure of information may affect the legal rights of a third party, such as the right to have certain information treated in confidence or rights under Article 8 of the European Convention on Human Rights;
- The views of the third party may assist the College to determine if information is exempt from disclosure; or
- The views of the third party may assist the College to determine the public interest test.

Personal information requested by third parties is also exempt under this policy where release of that information would breach the Data Protection Act. If a request is made for a document (e.g. Governing Body minutes) which contains personal information whose release to a third party would breach the Data Protection Act, the document may be issued by blanking out the relevant personal information as set out in the redaction procedure.

Exemptions

The presumption of the Freedom of Information Act is that the College will disclose information unless the Act provides a specific reason to withhold it. The Act recognises the need to preserve confidentiality and protect sensitive material in certain circumstances.

The College may refuse all/part of a request, if one of the following applies: -

- 1) There is an exemption to disclosure within the act;
- 2) The information sought is not held;
- 3) The request is considered vexatious or repeated; or
- 4) The cost of compliance exceeds the threshold.

A series of exemptions are set out in the Act which allow the withholding of information in relation to an enquiry. Some are very specialised in their application (such as national security) and would not usually be relevant to schools.

There are two general categories of exemptions:-

- 1) **Absolute:** where there is no requirement to confirm or deny that the information is held, disclose the information or consider the public interest; and
- 2) **Qualified:** where, even if an exemption applies, there is a duty to consider the public interest in disclosing information.

Absolute Exemptions

There are eight absolute exemptions set out in the Act. However the following are the only absolute exemptions which will apply to the College: -

- Information accessible to the enquirer by other means (for example by way of the College's Publication Scheme);
- National Security/Court Records;
- Personal information (i.e. information which would be covered by the Data Protection Act);
- Information provided in confidence.

If an absolute exemption exists, it means that disclosure is not required by the Act. However, a decision could be taken to ignore the exemption and release the information taking into account all the facts of the case if it is felt necessary to do so.

Qualified Exemptions

If one of the below exemptions apply (i.e. a qualified disclosure), there is also a duty to consider the public interest in confirming or denying that the information exists and in disclosing information.

The qualified exemptions under the Act which would be applicable to the College are: -

- Information requested is intended for future publication (and it is reasonable in all the circumstances for the requester to wait until such time that the information is actually published);
- Reasons of National Security;
- Government/International Relations;
- Release of the information is likely to prejudice any actual or potential legal action or formal investigation involving the College;
- Law enforcement (i.e. if disclosure would prejudice the prevention or detection of crime, the prosecution of offenders or the administration of justice);
- Release of the information would prejudice the ability of the College to carry out an effective audit of its accounts, resources and functions;
- For Health and Safety purposes;
- Information requested is Environmental information;
- Information requested is subject to Legal professional privilege; and
- For “Commercial Interest” reasons.

Where the potential exemption is a qualified exemption, the College will consider the public interest test to identify if the public interest in applying the exemption outweighs the public interest in disclosing it.

In all cases, before writing to the enquirer, the person given responsibility by the College for dealing with the request will need to ensure that the case has been properly considered, and that the reasons for refusal, or public interest test refusal, are sound.

Refusal

If it is decided to refuse a request, the College will send a refusals notice, which must contain

- The fact that the responsible person cannot provide the information asked for;
- Which exemption(s) apply;
- Why the exemption(s) apply to this enquiry (if it is not self-evident);
- Reasons for refusal; and
- The College’s complaints procedure.

For monitoring purposes and in case of an appeal against a decision not to release the information or an investigation by the Information Commissioner, the responsible person must keep a record of all enquiries where all or part of the requested information is withheld and exemptions are claimed. The record must include the reasons for the decision to withhold the information.

Complaints/Appeals

Any written (including email) expression of dissatisfaction should be handled through the College’s existing complaints procedure. Wherever practicable the review should be handled by someone not involved in the original decision.

The Governing Body should set and publish a target time for determining complaints and information on the success rate in meeting the target. The College should maintain records of all complaints and their outcome.

If the outcome is that the College's original decision or action is upheld, then the applicant can appeal to the Information Commissioner. The appeal can be made via their website or in writing to:

ST MICHAEL'S CATHOLIC COLLEGE SOCIAL MEDIA POLICY 2018

Introduction

This policy applies to all College staff regardless of their employment status. It is to be read in conjunction with the College's ICT Policy. This policy does not form part of the terms and conditions of employee's employment with the College and is not intended to have contractual effect. It does however set out the College's current practices and required standards of conduct and all staff are required to comply with its contents. Breach of the provisions of this policy will be treated as a disciplinary offence which may result in disciplinary action up to and including summary dismissal in accordance with the College's Disciplinary Policy and Procedure.

This Policy may be amended from time to time and staff will be notified of any changes no later than one month from the date those changes are intended to take effect.

Purpose of this Policy

The College recognises that the internet provides unique opportunities to participate in interactive discussions and share information on particular topics using a wide variety of social media, such as Facebook, Twitter, LinkedIn, blogs and Wikipedia. However, staff use of social media can pose risks to the College's confidential and proprietary information, its reputation and it can jeopardise our compliance with our legal obligations.

To minimise these risks, avoid loss of productivity and to ensure that our IT resources and communications systems are used only for appropriate work related purposes, all College staff are required to comply with the provisions in this policy.

Who is covered by this policy?

This policy covers all individuals working at all levels and grades within the College, including senior managers, officers, governors, employees, consultants, contractors, trainees, homeworkers, part-time and fixed-term employees, casual and agency staff and volunteers (collectively referred to as **Staff** in this policy).

Third parties who have access to our electronic communication systems and equipment are also required to comply with this policy.

Scope and Purpose of this Policy

This policy deals with the use of all forms of social media including Facebook, LinkedIn, Twitter, Wikipedia, all other social networking sites, and all other internet postings, including blogs.

It applies to the use of social media for both work and personal purposes, whether during work hours or otherwise. The policy applies regardless of whether the social media is accessed using our IT facilities and equipment or equipment belonging to members of staff.

Breach of this policy may result in disciplinary action up to and including dismissal.

Disciplinary action may be taken regardless of whether the breach is committed during working hours and regardless of whether the College's equipment or facilities are used for the purpose of committing the breach. Any member of staff suspected of committing a breach of this policy will be required to co-operate with our investigation, which may involve handing over relevant passwords and login details.

Staff may be required to remove internet postings which are deemed to constitute a breach of this policy. Failure to comply with such a request may in itself result in disciplinary action.

Personnel responsible for implementing the policy

The Board of Governors have overall responsibility for the effective operation of this policy, but have delegated day-to-day responsibility for its operation to the Principal.

Responsibility for monitoring and reviewing the operation of this policy and making recommendations for change to minimise risks also lies with the Principal in liaison with the IT Development Manager.

All senior College Staff have a specific responsibility for operating within the boundaries of this policy, ensuring that all staff understand the standards of behaviour expected of them and taking action when behaviour falls below its requirements.

All College Staff are responsible for the success of this policy and should ensure that they take the time to read and understand it. Any misuse of social media should be reported to the Principal in the first instance. Questions regarding the content or application of this policy should be directed by email to Mr J. Arda, Assistant Principal in charge of Data on j.arda@stmichaelscollege.org.uk.

Compliance with related policies and agreements

Social media should never be used in a way that breaches any of our other policies. If an internet post would breach any of our policies in another forum, it will also breach them in an online forum. For example, employees are prohibited from using social media to:

- a) Breach our Electronic information and communications systems policy;
- b) Breach our obligations with respect to the rules of relevant regulatory bodies;
- c) Breach any obligations they may have relating to confidentiality;
- d) Breach our Disciplinary Rules;
- e) defame or disparage the College, its Staff, its pupils or parents, its affiliates, partners, suppliers, vendors or other stakeholders;

- g) Unlawfully discriminate against other Staff or third parties or breach our Equal opportunities policy;
- h) Breach our Data protection policy (for example, never disclose personal information about a colleague online);
- i) Breach any other laws or ethical standards (for example, never use social media in a false or misleading way, such as by claiming to be someone other than yourself or by making misleading statements).
- j)

Staff should never provide references for other individuals on social or professional networking sites, as such references, positive and negative, can be attributed to the College and create legal liability for both the author of the reference and the organisation.

Staff who breach any of the above policies will be subject to disciplinary action up to and including termination of employment.

Personal use of social media

Personal use of social media is never permitted during working time or by means of our computers, networks and other IT resources and communications systems.

Staff should not use a work email address to sign up to any social media and any personal social media page should not make reference to their employment with the College (excluding LinkedIn or similar, where prior permission is sought from Mr J. Arda, Assistant Principal in charge of Data).

Staff must not take photos or posts from social media that belongs to the College for their own personal use.

Monitoring

The contents of our IT resources and communications systems are the College's property. Therefore, staff should have no expectation of privacy in any message, files, data, document, facsimile, telephone conversation, social media post conversation or message, or any other kind of information or communications transmitted to, received or printed from, or stored or recorded on our electronic information and communications systems.

The College reserves the right to monitor, intercept and review, without further notice, staff activities using our IT resources and communications systems, including but not limited to social media postings and activities, to ensure that our rules are being complied with and for legitimate business purposes and you consent to such monitoring by your acknowledgement of this policy and your use of such resources and systems. This might include, without limitation, the monitoring, interception, accessing, recording, disclosing, inspecting, reviewing, retrieving and printing of transactions, messages, communications, postings, log-ins, recordings and other uses of the systems as well as keystroke capturing and other network monitoring technologies.

The College may store copies of such data or communications for a period of time after they are created, and may delete such copies from time to time without notice.

All Staff are advised not to use our IT resources and communications systems for any matter that he or she wishes to be kept private or confidential from the College.

Educational or Extra Curricular Use of Social Media

If your duties require you to speak on behalf of the College in a social media environment, you must follow the protocol outlined below.

The Principal may require you to undergo training before you use social media on behalf of the College and impose certain requirements and restrictions with regard to your activities.

Likewise, if you are contacted for comments about the College for publication anywhere, including in any social media outlet, you must direct the inquiry to the Principal and must not respond without advanced written approval.

Recruitment

The College may use internet searches to perform pre employment checks on candidates in the course of recruitment. Where the College does this, it will act in accordance with its data protection and equal opportunities obligations.

Responsible use of social media

The following sections of the policy provide staff with common-sense guidelines and recommendations for using social media responsibly and safely.

Photographs for use of Social Media

Any photos for social media posts may only be taken using College cameras/devices or devices that have been approved in advance by Mr J. Arda, Assistant Principal in charge of Data). Where any device is used that does not belong to the College all photos must be deleted immediately from the device, once the photos have been uploaded to a device belonging to the College.

Staff Protocol for use of Social Media

Where any post is going to be made on the College's own social media the following steps must be taken:

1. Ensure that permission from the child's parent has been sought before information is used on social media (in writing from the parent), if relevant.
2. Ensure that there is no identifying information relating to a child/children in the post - for example any certificates in photos are blank/without names or the child's name cannot be seen on the piece of work.
3. The post must be a positive and relevant post relating to the children, the good work of staff, the College or any achievements.
4. Social Media can also be used to issue updates or reminders to parents/guardians and St Michael's Catholic College will have overall responsibility for this. Should you wish for any reminders to be issued you should contact Mr J. Arda by email to ensure that any post can be issued.
5. The proposed post must be presented to Mr J. Arda for confirmation that the post can 'go live' before it is posted on any social media site.
6. Staff can post the information, but must have responsibility to ensure that the Social Media Policy has been adhered to.
- 7.

Protecting our business reputation

Staff must not post disparaging or defamatory statements about:

- i. The College;
- ii. Current, past or prospective Staff as defined in this policy
- iii. Current, past or prospective pupils
- iv. Parents, carers or families of (iii)
- v. The College's suppliers and services providers; and
- vi. Other affiliates and stakeholders.

Staff should also avoid social media communications that might be misconstrued in a way that could damage the College's reputation, even indirectly.

If Staff are using social media they should make it clear in any social media postings that they are speaking on their own behalf. Staff should write in the first person and use a personal rather than College e-mail address when communicating via social media.

Staff are personally responsible for what they communicate in social media. Staff should remember that what they publish might be available to be read by the masses (including the College itself, future employers and social acquaintances) for a long time. Staff should keep this in mind before they post content.

If Staff disclose whether directly or indirectly their affiliation to the College as a member of Staff whether past, current or prospective, they must also state that their views do not represent those of the College.

Staff must ensure that their profile and any content posted are consistent with the professional image they are required to present to colleagues, pupils and parents.

Staff must avoid posting comments about confidential or sensitive College related topics. Even if Staff make it clear that their views on such topics do not represent those of the College, such comments could still damage the College's reputation and incur potential liability.

If a member of Staff is uncertain or concerned about the appropriateness of any statement or posting, he or she should refrain from making the communication until he or she has discussed it with his Line Manager or Head of Department.

If a member of Staff sees content in social media that disparages or reflects poorly on the College, it's Staff, pupils, parents, service providers or stakeholders, he or she is required to report this in the first instance to the Head Teacher without unreasonable delay. All staff are responsible for protecting the College's reputation.

Respecting intellectual property and confidential information

Staff should not do anything to jeopardise College confidential information and intellectual property through the use of social media.

In addition, Staff should avoid misappropriating or infringing the intellectual property of other College's, organisations, companies and individuals, which can create liability for the College, as well as the individual author.

Staff must not use the College's logos, brand names, slogans or other trademarks, or post any of our confidential or proprietary information without express prior written permission from the Principal.

To protect yourself and the College against liability for copyright infringement, where appropriate, reference sources of particular information you post or upload and cite them accurately. If you have any questions about whether a particular post or upload might violate anyone's copyright or trademark, ask the Principal in the first instance before making the communication.

Respecting colleagues, pupils, parents, clients, service providers and stakeholders

Staff must not post anything that their colleagues, the College's past, current or prospective pupils, parents, service providers or stakeholders may find offensive, including discriminatory comments, insults or obscenity.

Staff must not post anything related to colleagues, the College's past, current or prospective pupils, parents, service providers or stakeholders without their advanced written permission.

Monitoring and review of this policy

Mr J. Arda, Assistant Principal in charge of Data together with Ms F. Corcoran, Principal shall be responsible for reviewing this policy from time to time to ensure that it meets legal requirements and reflects best practice. The Board of Governors has responsibility for approving any amendments prior to implementation.

The Principal has responsibility for ensuring that any person who may be involved with administration or investigations carried out under this policy receives regular and appropriate training to assist them with these duties.
