Music and Worship

- St. Augustine de Hippo: "For he who sings praise, does not only praise, but also praises joyfully."
- Psalms are a book of poetry in the Old Testament. These are part of the Church's Divine Office. They are also sang in mass between the first and second reading.
- Psalms focus on the praising of God but focus on all aspects of life e.g. sickness, praying for harvest, seeking forgiveness etc.
- Plainchant- ancient form of music that is usually unaccompanied and uses a limited range of notes. Used in monasteries to sing the Divine Office in Latin.
- Traditional Hymns- hymns that have been used by believers for many years. These hymns have been able to help believers over many periods of time.
- Contemporary Worship Songs- After the Second Vatican Council, Mass was allowed to be said in that country's language (before this, it was said in Latin). This led to the creation of modern hymns that allowed the congregation to be more involved in the worship.
- Mass Settings- Some part of the mass must be sung rather than read. Over the years, there have been many compositions created for this, designed to be sung by a choir. Since the 1960's they have been composed to allow the whole congregation to join in.

The love of God pours out in to believers as the Holy Spirit; love is sharing, self-giving and creative.
