

16-18 Additional Funding 2021-22

The additional funding will be utilised by students on a 16-19 programme of study at St Michael's Sixth Form. The funding will be used to support students who had their learning disrupted by Covid-19. The funding will be used to:

- Provide students with additional small group tuition in their specific subjects, including providing Learning Mentor tuition sessions for small groups underperforming in one of their subjects.
- Provide disadvantaged students or those students who only attained a grade 4 in English/Maths at GCSE with after school and Saturday club revision sessions.
- Pay staff for the additional Saturday or school holiday revision sessions for students considered disadvantaged or who only attained a grade 4 in English/Maths at GCSE.
- Provide students with SEND with support via revision sessions.

The impact of the funding will be measured through the tracking of students' progress in order to evaluate the additional provision provided to students to support the disruption to their learning.
