

Speech and Language Therapy

School Service

St Michael's Catholic College commissions Speech and Language Therapy from **Evelina London**.

Our speech and language therapists work with schools to support **Speech, Language and Communication (SLC)** skills, in areas like:

- Attention and listening
- Understanding
- Talking
- Supporting interactions with others

Speech, language and communication development is important in supporting pupil's **learning** and their ability to **build relationships**. Any difficulties can have an impact on the pupil's **self-esteem**.

We support schools through a range of different activities including training, advice, classroom observations, setting up groups, creating a communication friendly environment to support language & learning, and much more.

We welcome the involvement of parents and carers. Please get in touch if you would like to chat to the Speech and Language Therapist about any concerns you have regarding your child's language skills or find out about strategies to support them at home. Your SENCO can arrange a meeting with us either in school, video appointment, or by telephone. Please get in touch if you would like to request that your child does not have direct contact with the Speech and Language Therapist (through our targeted and universal support) without your permission.
